90363-40066 Front Rear Wheel Bearing and Hub for Toyota Corolla for Automobile Spare Parts

Our Product Introduction

For more products please visit us on automobile-sparepart.com

Basic Information

- Place of Origin: CHINA
- Brand Name: NABO
- Certification: TS16949
- Model Number: 90363-40066
- Packaging Details: poly bag or air bubble bag, any boxes with customers' label, Corrugated box , Standard tray
- Delivery Time: 3-35 days
- Payment Terms: D/P, L/C, T/T

Product Specification

- Name: Automobile Spare Parts
- Warranty: 12 Months
- Material: Steel
- Type: Wheel Hub Bearing
- Size: Standard
- Country Of Origin: China

Product Description

Product Description:

A wheel hub bearing is a vital part of a car's suspension system. It's also known as a hub assembly or wheel bearing assembly, and it is an essential component of a vehicle's suspension.

The wheel hub bearing is situated at each wheel of the car and aids in the smooth and controlled rotation of the wheel while simultaneously supporting the weight of the vehicle.

Features:

Our wheel hub bearing is designed to provide a smooth and quiet operation, utilizing advanced bearing technology and precision engineering. This results in reduced friction and minimized noise, allowing for a comfortable and enjoyable driving experience.

To ensure long-lasting performance and reliability, we use premium-grade materials such as high-quality steel and durable seals in the construction of our wheel hub bearing. These materials are designed to withstand heavy loads, extreme temperatures, and harsh driving conditions.

The integrated design of our wheel hub bearing combines the wheel bearing, hub, and ABS sensor into a single unit, simplifying installation and ensuring proper alignment and functionality of the ABS system. This contributes to safe and efficient braking performance, enhancing the overall safety of your vehicle.

As a critical component of your vehicle's safety, our wheel hub bearing provides support and a secure attachment point for the wheel. By maintaining proper alignment and smooth rotation, it ensures optimal handling, stability, and control, reducing the risk of accidents.

Our wheel hub bearing undergoes rigorous testing and quality control processes to ensure its performance, reliability, and durability. It meets or exceeds industry standards and is backed by a warranty, giving you confidence and peace of mind in your purchase.

Technical Parameters:

Product Name:	Automobile Spare Parts
Type:	Wheel Hub Bearing
Material:	Steel
Country of Origin:	China
Size:	Standard
Warranty:	12 Months

Applications:

Looking to enhance the performance, safety, and reliability of your vehicle's wheel assembly? Look no further than our top-of-the-line wheel hub bearing!

With this advanced component, drivers will experience an exceptional level of smooth and quiet operation, as well as improved handling and increased driving confidence. With our product, you can trust in the quality and durability of our wheel hub bearing to provide long-lasting performance in all driving conditions.

Support and Services:

Our technical support team is available to assist with any questions or issues related to our automobile spare parts. We offer a range of services to ensure your satisfaction, including:

Installation guidance

Troubleshooting and diagnostics

Repair services

Product maintenance tips

Warranty information

Our experienced technicians are knowledgeable about the latest automotive technologies and can provide expert advice to help you get the most out of our products. We are committed to providing fast and reliable support to ensure your vehicle stays on the road and runs smoothly.

FAQ:

1. Who are we?

We are based in Guangzhou, China, start from 2018, we are specilizing in all kinds of spare parts for Japanese cars and Korean cars, for example, engine parts, suspension parts,electric parts, steering parts,transmission parts, body parts. . .

2. How can we guarantee quality?

Always a pre-production sample before mass production;

Always final inspection before shipment.

3. Why should you buy from us from other suppliers?

We have experience in spare parts for more than 10+years

- A large of stock

- Professional export company

- Accept small order

- We can design anything well according to customers' requirment
